

Property management system built by hoteliers, for hoteliers.

You work hard to give each guest the most pleasant, relaxing experience possible but, if you're like most hoteliers, your property management software doesn't live up to your high standards; in fact, it's a big part of the operational problems that you experience, day-in and day-out.

That's where Lodgical Solution comes in...

Lodgical Solution is an intuitive, comprehensive property management system, available to all types of lodging providers. Our PMS gives you all the information that you need to keep your property running at peak performance at-a-glance, without any of the tech headaches, to allow you to devote your time and energy to what really matters: the guest experience.

Savvy lodging providers across North America are trusting Lodgical Solution PMS because it was built on 30 years of the best ideas from property managers, and offers the most effective way to optimize their operations; now the important question is... will you??

 **ZUCCHETTI**

Lodgical Solution PMS offers you all the tools you need to run your property **smoothly**.

Reservation Management

Using Lodgical Solution PMS, you can quickly and easily access all the data you need for each reservation from one easy-to-understand dashboard, with customizable reservations and guest profiles (which make it easy to keep return guests happy by offering them exactly what they are looking for, without them having to ask).

Online Booking

Don't limit yourself to guests who already know you. Lodgical Solution PMS connects to many central reservation systems, so guests can find you on third-party booking sites or your own.

Point of Sale

Eliminate the hassle of learning and integrating more solutions, using Lodgical Solution PMS' customizable and integrated POS, so guests can charge meals and other non-room charges directly to their rooms.

Simple and Secure Payments

Our software is PCI-compliant, meaning no credit card numbers are ever stored on our system, eliminating your property's - and your guests' - risk.

**Take care of
your guests.
We'll do the rest.**

All Your Information At-a-Glance

Never go digging for a guest's reservation details again. With Lodgical Solution PMS, you'll always have the information you need right at your fingertips; lists of all current guests and upcoming check-ins and check-outs are always visible, no matter what screen you're on. You can also view your reservations on a simple, color-coded chart.

Guest Communication

Lodgical Solution PMS makes the guest experience enjoyable from booking to check-out. With customizable HTML email templates for confirmation letters, pre-arrivals, receipts and post-stay surveys, your guests will enjoy every interaction with your property, even the ones that occur online. With our included text messaging functionality, guests can also be notified when their room is clean or on any other occasion you choose.

Accessible From Anywhere

Lodgical Solution PMS is mobile compatible, giving you full access to your data from your desktop or your mobile devices.

Personal Support and Training

When you call our support line during business hours, you'll always talk to a real person - never a computer - without having to submit a ticket. At Lodgical Solution, we pride ourselves on our industry-leading customer service, which keeps our customers loyal.

What Our Clients Say

"Lodgical Solution PMS reports are terrific for property management and accountability. We are happy with the e-Registration and PCI-compliant credit card processing. There is only one reference number from online booking through payment and registration, making the process completely seamless. The staff at Lodgical Solution offer exemplary customer service and our requests are always handled promptly and accurately. We would highly recommend Lodgical Solution PMS to any hotel looking to optimize their property management processes."

Denise Stillman
